If you accept same day appointments, all lead-time on the calendar will go to zero. To restore lead time from zero to 1, uncheck the box and click submit. To build lead-time into individual days, click on the highlighted timeslot for that day and make the appropriate change.

My Service Center accepts same day appointments.

Listed below is your current calendar. The day(s) without setting [Business Hours](#) are not listed on this calendar. To update appointment availability, please click on the **Timeslot** you wish to modify.

Remember: The number of available appointments directly affects how many on-line consumer appointments you can accept per day. If you're not receiving enough appointments, try increasing the number. Conversely, if you're getting too many appointments, reduce the number.
