

Your Single Source for OE Repair Information

ALLDATA® RepairSM is the leading single source of manufacturers' diagnostic, maintenance and repair information. OE data is available for more than 22,000 engine-specific vehicles from 1982 to present.

Give your technicians the information they need to work accurately, efficiently and profitably. ALLDATA Repair (Online Version) is available 24/7 and updates are automatic. The OE repair information is never edited or redrawn and thousands of pages of data are added each year.

For your convenience, ALLDATA Repair integrates with i•Shop3 compliant equipment.

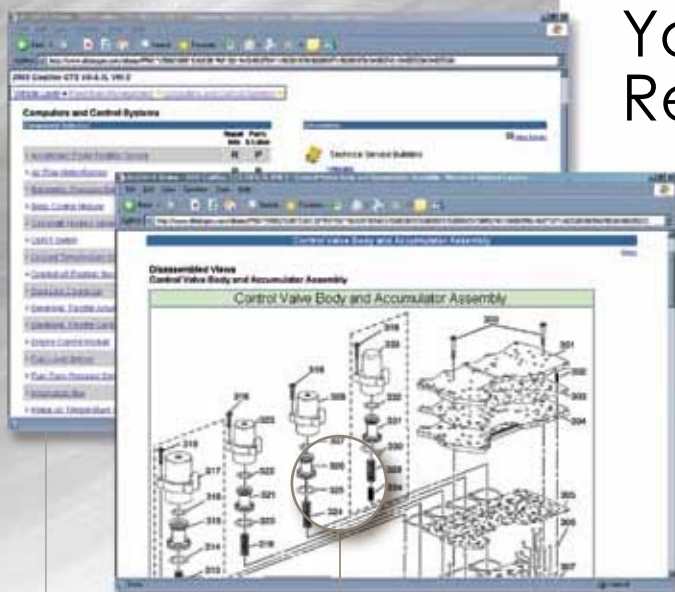

Designed for Profitability

Use ALLDATA's factory maintenance schedules to capture your share of the billions of dollars in maintenance that goes unperformed every year.* Manufacturers' maintenance schedules open the door to increased revenue while ensuring that your customers' vehicles receive the service they need at the time they need it.

Keep Your Best Customers Coming Back

Build trust with your customers by letting them know you rely on manufacturers' vehicle-specific information from ALLDATA to keep their cars running safely and efficiently.
