

“Now he  
calls me  
‘Doc’”

Lyndon Wester of Wester's Garage  
Tilley, Alberta, Canada

Lyndon Wester's repair shop in Tilley, Alberta (pop. 397) is in the heart of truck country, surrounded by oil fields and wide-open space.

For Lyndon's customer Mike Williams, it was a typical Saturday morning. A self-employed contractor, he was out checking oil wells on his route about 60 miles from town. Without warning, his 2000 4x4 suddenly quit when he braked. There he was — without power in the middle of nowhere. Losing money by the minute.

Three hours later, with no tow truck in sight, Mike called Lyndon from his cell phone. Using his ALLDATA® system, Lyndon instinctively pulled up the appropriate schematics on his computer screen and guided Mike through some checks. Seems a wire had popped out of the ignition switch connector inside the steering column.

Needless to say, Mike has referred folks to Lyndon and his top shop ever since. In fact, it's the combination of Lyndon's automotive expertise, great customer service and ALLDATA information that keeps customers coming back from miles around. All in a day's work at Wester's Garage.
